

MEET MISS GROH!

Dear Parents and Guardians,

Hello! My name is Remy Groh and I will be Ms. Sorrell's student teacher from now until Mid October. I am a student from Miami University and just graduated with my Fine Arts degree this past May and currently working towards becoming an art teacher. I am very excited to start the year off with all of you where I will be teaching some of my own lesson plans. We will work with a variety of different materials from painting, to collage and even clay. I am really big on introducing inspiration from contemporary artists. I believe that it is important to know the artists who have made history, but also, to talk about the ones who are currently out there now creating work. Not only are we experimenting with a wide range of materials, but in this class I want to incorporate how other subjects such as science, english and math can combine with art. Students will also learn basic skills like following instructions and managing their time. In this setting, it is not about who is the most talented. I am interested in seeing growth as a student progresses from one lesson to another. I believe success happens when students are doing their best, feel inspired, and are having fun. I am looking forward to having your child in class and possibly meeting with you too.

Sincerely,

Remy J. Groh
